

**MARCUS
NETWORKING**
Technology & Telecom in One Company

WHY CHOOSE MARCUS NETWORKING?

Marcus Networking has been providing technology and telecommunications solutions to business for over a decade. Our portfolio includes clients throughout the US, Canada, and Australia representing a variety of industries such as medical, manufacturing, produce, finance, retail, schools, and non-profits.

Our experienced team is capable of providing turnkey solutions for your business. Hand us an empty building or your current facility and we will provide you with an operating environment that includes: voice/data network, dial tone and internet services, a phone system, desktop and server solutions, copier/print/fax solution, surveillance and security, along with our 24/7 end user support.

No project is too small or too large for Marcus Networking. Our talented staff has built technology and telecommunication systems for businesses with 5 to 250 users. We have the buying power of many Fortune 500 companies and the ability to be nimble and flexible. Our team is responsive, knowledgeable and committed to solving your IT challenges.

Marcus Networking recognizes technology is always changing and we are capable of adapting to your needs. We are one of the few companies that understands technology and telecommunications and how it all ties together which allows for a more effective solution for your business. Essentially, we serve as your single source provider and eliminate the need for calling multiple vendors.

WHO ARE WE?

Founded in 2002 by Eric Marcus, Marcus Networking, Inc. has grown to an organization with a staff of 18. The Management staff has an average of over 20+ years of experience in the various facets of business operations, ranging from Fortune 100 companies to independent small business. The highly-qualified technicians are experienced in current business solutions including CCNA and MCSE and various industry-specific applications.
